The Griffen Homestead, one of the oldest homes in the nation with major renovations, sits on 1+ acre in this prime location. This Westchester landmark was originally built circa 1711 and later additions reflect American 18th and 19th century architectural styles. It is filled with original features including hand hewn beams, plank and nail wood flooring, 5 fireplaces, original doors and hardware, and wainscoted windows in the formal living room. The front to back center hall leads to a sun filled living room with fireplace and gracious dining room with fireplace. A kitchen restored with late 19th century cabinetry features today's ...stainless steel appliances and marble countertops. There's a charming breakfast room with bench seating, den, hearth room and spacious laundry room as well. The 2nd level boasts a master bedroom ensuite/dressing room, private office and bath plus 4 bedrooms; two with fireplaces and full bath. Continuing to third level you have an Au Pair suite comprised of two bedrooms, sitting room and bath. Complete with 2 story Barn/Garage with finished gym and huge loft space. Offered at \$2,375,000.
