**Rye, N.Y. – August 31, 2015 – Julia B. Fee Sotheby's International Realty** (<http://www.williampitt.com/westchester/>) announced today that a recently sold Colonial home in the village of Rye Brook, N.Y., was chosen to be featured as a “dream home” on an episode of HGTV’s “Property Brothers.” Julia Brasesco, an agent with the firm’s Rye brokerage, represented the buyers on the purchase of the residence, which was sold at a price of \$990,000. Filming of the property recently took place, revealing kitchen, dining room and family room renovations completed specially for the show for an episode set to air in the spring of 2016.

“Property Brothers (<http://www.hgtv.com/shows/property-brothers/>)” is a one hour reality show in which twin brothers Jonathan and Drew Scott help home buyers find, purchase and transform “fixer-uppers” into dream homes, while maintaining a strict budget. Each episode begins with the brothers showcasing

a home that features everything on the future homeowner's wish list, eventually leading them to homes that are more in their price range, but still have great potential to become their dream home.

This charming Colonial home, originally constructed in 1969, boasts four bedrooms, all with plenty of space and hardwood flooring. The kitchen contains granite counters and a breakfast area, which is adjacent to the family room. Large bay windows overlooking a well-kept backyard can be found in the residence's spacious living room, while a formal dining room completes the main level. As a result of the show, the kitchen, dining room and family room were all completely renovated.

"The reveal of the Property Brothers' work was truly sensational," said Brasesco. "The spectacular transformation of all three of these rooms made this home even more brilliant, adding to its already inviting atmosphere in the wonderful Westchester County neighborhood of Rye Brook. I am so excited for the buyers, who are now most definitely living in their dream home."

Stay tuned for details on the episode's HGTV air date, which is scheduled for spring of 2016.
