MOST INFLUENTIAL REAL ESTATE EXECUTIVES

The Fastest Way to Increase Real Estate Sales Guaranteed

As a successful real estate professional, you've proven that you have the ability to transform your vision into reality. Yet as many real estate agents and brokers become successful, they reach a stage where it becomes increasingly difficult to move to the next level.

We developed *Real Estate Executive Magazine* and Mastermind Summit to give you the tools and systems to make the quantum leaps in your real estate production and business results. Designed for successful, experienced Realtors, Brokers and Executives the magazine and Vegas event provide what is needed to break through to the next level.

What makes the difference between thriving and barely surviving in the real estate business, in any economic climate? Answer: It's not the interest rate, inventory or service. It's the skills, strategies and systems developed and implemented by each real estate professional. That is the key element.

On June 6-7, 2015 at The Palms Hotel in Las Vegas, we have assembled an elite group of real estate coaches, thought leaders and top producers, including Tony Robbins.

Money Making Training for Real Estate Executives, Brokers and Realtors

The last few years have been turbulent in the real estate industry. Over 70% of your competition has been swept away. The real estate industry has experienced dramatic changes and for many agents and brokers it has been challenging. Never before has investing in yourself been more critical. Implementing the turn-key strategies, predictable loan systems and marketing secrets generating results for the nation's top producers—those earning \$500k, \$900k and \$1,500,000+ in personal net income, even in today's turbulent real estate market—can help you take your business to the next level.

At *Real Estate Executive Magazine* and Mastermind Summit we are serious about helping agents and brokers who are serious about creating stable, healthy, personally fulfilling businesses. The real estate business is fun and creative and challenging and filled with possibilities. What it's not is easy or effortless. If you are looking for a "get rich quick," "I don't want to spend any time," "business should be easy" approach to building a real estate business, this is not the place for you. You can create a real estate business that gives you time and freedom and money, but it will take work. We are here to help, but we can only help the originators, managers and executives who are willing to work for it. We take pride in getting our clients results, but we are only half of the equation.
