

## AGENT PROFILE *Eva Safier*

# Agent connects to home buyers

**E**va Safier had met many people who were in real estate businesses and was encouraged by them to go into it full time in the 1990s.

With close to two decades of experience, the real estate has earned awards and recognition for her sales production throughout her career. Her real estate philosophy is all about helping, guiding and advising on all aspects of real estate.

She feels what sets her apart from others in the business is her passion to help people and prides herself in building lasting relationships with both clients and agents. In fact, she counts that ability among her best real estate skills.

It's no wonder the most rewarding part of Safier's career is to see her clients happy with the results of the transaction whether they are selling their home or buying a new one. But it is the first-time buyers she has the most personal experience with.

Having immigrated from Europe at a young age, she understands the important of having that first home and how challenging transition can be thereafter, according to her website.

She also has expertise marketing properties for sale. Her residential appraisal background also gives her the tools to help her clients make informed decisions on their real estate transactions. She also prides herself in being both reliable and accessible.

From her office in Southport, Safier serves the communities of Southport, Easton, Norwalk, Trumbull and Fairfield where she personally calls home.
