

AGENT PROFILE *Andrew Allegretta*

An expert in construction

An expert in the contracting and construction field, Andrew Allegretta brings a special skill set to every real estate transaction.

A Realtor for William Pitt Sotheby's Realty for six years, Allegretta has more than 15 years of experience in residential remodeling/construction. The agent works with 50 vendors from plumbers to attorneys and said he has a simple philosophy: "We want to help educate homeowners and allow them to make the best decision for themselves."

Allegretta said his specialty background makes him a better Realtor.

"The biggest things that separate myself from others is that I use a data-driven approach," he said. "I have experience and data based on past experiences in real estate and construction that allows me to establish key goals for clients and provide them with options to education them based on that experience and data."

Allegretta said he's always had a passion for real estate and construction.

"I love to build and see change and the progress from start to finish," he said. "I enjoy helping clients make decisions based on their personal needs and wants."

A Norwalk native who now lives in Fairfield, Allegretta is currently in the process of rebranding himself with the name "Trietta LLC," a take-off of his last name.

He said his goal with Trietta is to "integrate and manage multiple services as a single-source provider. It's going to allow me to have my business under one umbrella. We will have a unique feature built into my web-

site that will allow homeowners to ask any real estate-related question whether it be on valuing a home, investment opportunities or remodeling costs. You will receive a comprehensive and data-drive response."

Allegretta said working with William Pitt's approximate 40 other agents and manager Kevin Hickey in the Wilton office is a plus.

"Kevin has been a great mentor and leader," he said. "He is very responsive and has helped me and supported my growth for several years. He's always there to answer questions and I can bounce ideas off him and get great feedback."
